How to Heal Skin-Diseases

A Baltimore simple, but reliable and inexpensive, home treatment for people suffering with eczema, ring-worm, rashes and similar itching, burn-

ing skin troubles. At any reliable druggist's get a jar of resinol ointment and a cake of resinol soap.

These are not at all expensive. With the resinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage-if necessary to protect the clothing. This should be done twice a day. Usually the itching and burning stop with the first treatment, and the skin soon be-comes clear and healthy again.

Almost any soap will clean the skin and hair. But those who want a soap which not only cleanses but actually helps the complexion and hair are wise to choose resinol soap.
